Site Map

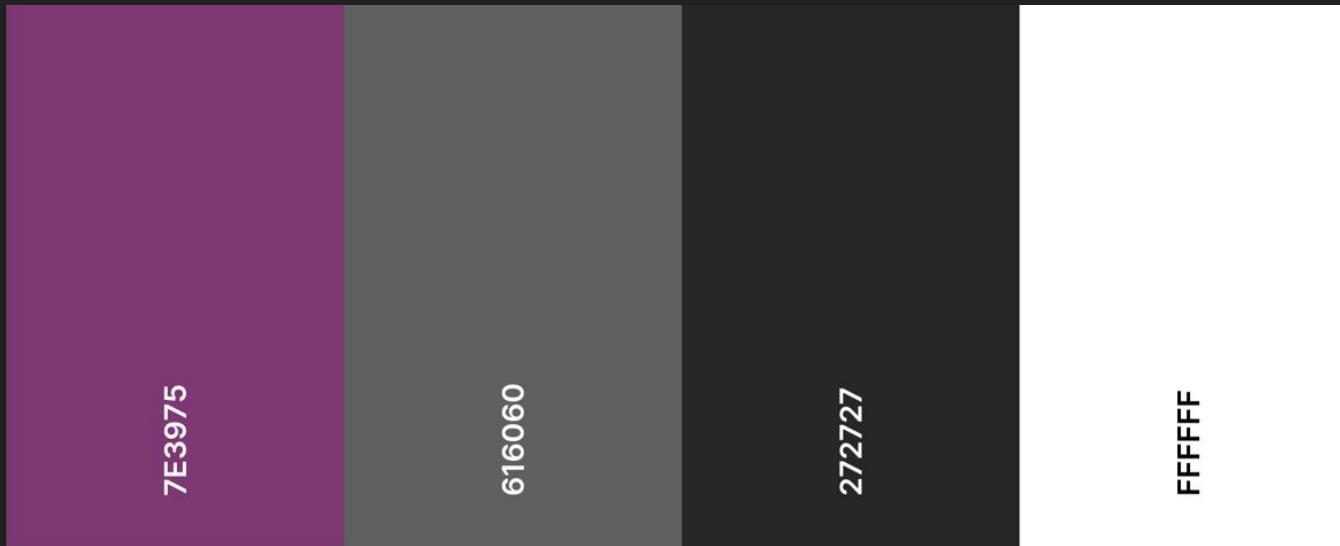

Components used for website

- Header included personal logo image and nav bar
- Hero text. Both a design choice and running theme among pages
- Two pages used general <p> for the information
- Other two main pages utilised containers/links for information
- Footer included links to socials off site
- Images near text in an effort to draw attention
- Enjoyed the style of the photos being the main ‘colour’ on the site.
- Highlighted boxes/text on blog page to indicate items can be clicked on

How will this engage my audience?

- Functionality/accessibility focus during html/css development
- Colour scheme is simple, easy to read and highlights the important details
- Obvious how to get in touch with me, reducing friction for prospective contact

ABOUT ME

Brisbane, Australia

I have a keen interest in mental health and have been helping individuals with schizophrenia live meaningful lives. Through my work, I have honed my soft skills, such as communication and empathy, which have been invaluable in building relationships with clients. Aside from my work, I enjoy indulging in my hobbies, which include playing video games, traveling, and keeping up to date with whats new in tech. I find that these activities help me recharge and stay motivated to pursue my goals.

I'm currently learning web development with Coder Academy and am excited to explore this new direction in my career. I believe that the skills and knowledge I gain from this program will enable me to create meaningful solutions that positively impact people's lives.

Difficulties and Triumphs

- Time management was difficult
- Staying within the scope of the assessment and my abilities
- How easy it was to just be engaged with the project itself and enjoy the process
- Getting the blog posts to highlight
- Used own photos to avoid ethical issues
- Did not feel comfortable linking my phone number

Thanks for listening!
